

## Geography and British Values at Moira Primary School.

Democracy	Rule of Law	Individual Liberty	Mutual Respect	Tolerance
<p>In Geography, we respect each other and encourage everyone to have the confidence to express their ideas and opinions regarding geographical issues such as pollution, environmental issues, water and globalisation.</p>	<p>In Geography, pupils examine different codes for living and consider the value of the rule of law where all people are equal before the law.</p> <p>Children are given the opportunities to explore laws at a local and global scale can influence both the physical and human layout of the landscape and contribute towards population decline and growth in certain areas.</p>	<p>Children will compare different locations at local, national and international levels, exploring the people living in these environments and their own individual liberties.</p>	<p>Children are taught and encouraged to show respect to each other's beliefs, feelings and opinions. They also learn how to question and challenge stereotypes about people and places.</p>	<p>Children consider questions regarding how different cultures live and work throughout the world. Our curriculum also helps to demonstrate the diversity of people's backgrounds helping children to have further tolerance of different faiths and beliefs.</p>
